Welcome
During the Spring, when the desire to ‘grow your own’ was so overwhelming, it must be said, we’ve never known a response quite like it. We hope your experience of growing from seed was enjoyable and a welcome distraction and that you feel inspired to continue and try something different this year.

Being a family run business, we were fortunate that through the pandemic we could continue working without too much disruption to our routines however I would like to thank everyone, not just our own staff, but Seed Wholesalers and our local Post Office who helped us to fulfil your orders so quickly.

It has been a time of change here at Plants of Distinction, David Tostevin my business partner of 34 years decided it was time to take things a little easier and has retired from the business. His passion for plants has been inspiring and his knowledge invaluable – even now, his enthusiasm is such that we still sit and discuss the merits of new flower and vegetable varieties and long may it continue.

This year we have some lovely new ‘easy to grow’ annuals, some exciting perennials and some gorgeous cut flowers too. Added to that, there are loads of tasty new vegetables and despite the need to replace some due to new rules coming into place at the end of the year, we hope we have overcome any difficulties that might have arisen by offering varieties that can be sold both in the UK and worldwide.

Finally, thank you for your business, none of this would be possible without you and so if you like what you see, please do tell your gardening friends.

With best wishes,
Sarah Missing & the Plants of Distinction Team
